## **EDUCATIONAL WINE TASTING CLASS:**

### *“Fundamentals Of Pairing Wine & Cheese”*

**Wednesday, December 1, 2010 @ 7:15 PM**

**\$15.00/Person – LIMITED SEATING**

**Reservations & Prepayment Required** – Our Wednesday evening wine tasting events are designed to be educational. As such, we are limiting attendance to 18 people with the intent of encouraging interaction and feedback between the attendees and the leaders.

**Objectives Of The Class** - Wine and Cheese are said to be one of the purest romantic links between humans and nature, but pairing them can be fraught with confrontations. Generally speaking, many wine experts feel that cheese is one of the trickiest foods to properly match to a wine. Conversely, many legendary harmonious matches do exist - namely Port and Stilton and Roquefort and Sauternes – so it is not impossible to create a savory match between these two not so perfect partners. Our August Educational Wine Tasting Class will be designed to provide the basics as to what you must consider in both the wine and the cheese in order to create a match that you will remember long after both are consumed.

For this class we will select seven different cheeses from our inventory and Mike Summerlin, from Classic Wine Distributors, will pair each with a specially selected wine. During the class he will walk us through what characteristics of the cheese were considered and which he thought were the most important in the selection of the wines and why. To review the list of cheeses that we have selected for this class please click on the following link:
